Christy Crowl

If you're going to launch a career, you might as well begin at the top. That's what musical child prodigy **Christy Crowl** does August 3 when she performs selections from her just-released debut CD at the UN Peace Convention in Geneva. The honor came her way when **Wilda Spalding**, head of a delegation for the UN Working Group, saw her performing at **The Fete'd Excellence's Festival of Lights**. So taken was Ms. Spalding with Crowl's original composition, "I See Light" from her new CD, that she invited the young artist to both speak and perform in Geneva. No stranger to the stage, Crowl has been performing since the age of five and is the official pianist for the **Warner Bros. National Bugs Bunny Tour**.
